We unfortunately have a mishap to report this week. A job trailer was apparently set up with stairs that were improperly assembled. The trailer installers were to return to fix the stairs properly. In the meantime, warning signs were posted and the door leading to the stairs was supposedly locked. The door, however, was somehow unlocked and an individual who was apparently talking on a cell phone, exited through the door and fell, injuring himself. There are several lessons to be learned here. Posted signs are not always good deterrents. The stairs should have been repaired immediately or totally barricaded so that no one had access to them. We should always pay attention to what we are doing and what's happening with our surroundings. This was not one of our employees, but it doesn't change this basic premise. Safety is every person's responsibility. Take a good look at your surroundings and constantly ask yourself this question. Are there any unsafe conditions that need to be corrected? If the answer is yes, act immediately – don't wait.

Don't forget to save the date for the 7th annual YDT celebrity golf tournament which will be held on 21 May 2010 at the Fort Walton Beach Municipal Golf Course with a 12:00 noon shotgun start. Continue to spread the word far and wide!

Once again, time flies and so must I. Until next time keep up the good work and remain **SAFE (Stay Accident Free Everywhere)**.
